#### Management's Discussion and Analysis

As management of Sutton County, Texas, we offer readers of Sutton County, Texas' financial statements this narrative overview and analysis of the financial activities of Sutton County, Texas for the fiscal year ended September 30, 2021.

### Financial Highlights

- The assets of Sutton County, Texas exceeded its liabilities at the close of the most recent fiscal year by \$13,537,344 (net position). Of this amount, \$7,476,883 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- . The government's total net position increased by \$787,997. This increase is due to an increase in operating grants and contributions of \$576,857 and careful budget management.
  - As of the close of the current fiscal year, Sutton County, Texas' governmental funds reported combined ending fund balances of \$8,911,067, an increase of \$677,128 in comparison with the prior year. 76% of this total amount, \$6,753,721, is available for spending at the government's discretion (unassigned fund balance).
- . At the end of the current fiscal year, unassigned fund balance for the general fund was \$6,908,613, or 134 percent of total general fund expenditures. At the end of the current fiscal year, restricted fund balance for the road and bridge fund was \$901,654, or 90 percent of total road and bridge fund expenditures.

Overview of the Financial Statements:

This discussion and analysis are intended to serve as an introduction to Sutton County, Texas' basic financial statements. Sutton County, Texas' basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of Sutton County, Texas' finances, in a manner like a private-sector business. The statement of net position presents information on all of Sutton County, Texas' assets, and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Sutton County, Texas is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). The government-wide financial statements distinguish functions of Sutton County, Texas that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Sutton County, Texas include road and bridge administration, public safety, public transportation, health and welfare, agriculture, and culture and recreation. The government-wide financial statements include only Sutton County, Texas itself (known as the primary government). The government-wide financial statements activities can be found on pages 10-11 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Sutton County, Texas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of Sutton County, Texas can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds: Governmental funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Sutton County, Texas maintains eighteen (19) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the road and bridge fund, the law enforcement grants fund, and the records management fund which are major funds.

Data from the other sixteen (15) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Sutton County, Texas adopts an annual appropriated budget for its General Fund and Road and Bridge Fund. A budgetary comparison statement has been provided for the general fund and the road and bridge fund to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 12-19 of this report.

Proprietary funds: Sutton County, Texas has no proprietary funds.

Notes to the financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20 - 67 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Sutton County, Texas' progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 68-72 of this report.

The combining individual fund statements and schedules referred to earlier in connection with non-major governmental funds and agency funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 73-76 of this report.

#### Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Sutton County, Texas, assets exceeded liabilities by \$13,537,344 at the close of the most recent fiscal year.

A portion of Sutton County, Texas' net position (33 percent) reflects its investment in capital assets (e.g., land, infrastructure, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. Sutton County, Texas uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Sutton County, Texas' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# SUTTON COUNTY, TEXAS NET POSITION

		nmental vities	То	tal
	2021	2020	2021	2020

Restricted	1,639,812	981,092	1,639,812	981,092
Unrestricted	7,476,883	7,263,431	7,476,883	7,263,431
Total Net Position	\$13,537,344	\$12,749,347	\$13,537,344	\$12,749,347

An additional portion of Sutton County, Texas' net position (12 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$7,476,883) may be used to meet the governments on going obligations to citizens and creditors. At the end of the current fiscal year, Sutton County, Texas reported a positive balance in the governmental activities. At the end of the current fiscal year, Sutton County, Texas reported a positive balance in all three parts of the governmental activities net position. For the prior fiscal year, Sutton County, Texas reported a positive balance in all three parts of the governmental activities net position.

### Governmental activities:

.

Governmental activities increased Sutton County, Texas' net position by \$787,997, thereby accounting for 100 percent of the total increase in the net position of Sutton County, Texas.

The government's total net position increased by \$787,997. This increase is due to an increase in operating grants and contributions of \$576,857 and careful budget management.

Expenses remained stable except as discussed above.

Financial Analysis of the Government's Funds

As noted earlier, Sutton County, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds:

The focus of Sutton County, Texas' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Sutton County, Texas' financing requirements. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Sutton County, Texas' governmental funds reported combined ending fund balances of \$8,911,067, an increase of \$677,128 in comparison with the prior year. 76 percent of this total amount \$6,753,721 constitutes unassigned fund balance, which is available for spending at the government's discretion. The remaining amount of \$2,157,346 is either restricted or committed.

The general fund is the chief operating fund of Sutton County, Texas. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,908,613, while total fund balance reached \$6,908,613. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 134 percent of total general fund expenditures, while total fund balance represents 134 percent of that same amount.

The fund balance of Sutton County, Texas' general fund increased by \$84,669 during the current fiscal year. Key factors in this increase are as follows:

. An increase in ad valorem taxes of \$148,584 and careful budget management.

At the end of the current fiscal year, restricted fund balance of the road and bridge fund was \$901,654, while total fund balance reached \$901,654. As a measure of the road and bridge fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Restricted fund balance represents 90 percent of total road and bridge fund expenditures, while total fund balance represents 90 percent of that same amount.

The fund balance of Sutton County, Texas' road and bridge fund increased by \$285,905 during the current fiscal year. Key factors in this increase are as follows:

. Operating transfers in of \$250,000 and careful budget management.

There is no analysis for the law enforcement grants fund because it is a grant and any comparison from year to year would be illusory. There is no analysis for the records management fund because annual expending is dictated by need and any comparison from year to year would be illusory.

#### **Budgetary Highlights**

The County had an increase of \$19,780 between the original budget and the final amended budget in the general fund. This increase is immaterial.

Capital Asset and Debt Administration

Capital assets:

Sutton County, Texas' investment in capital assets for its governmental activities as of September 30, 2021, amounts to \$4,574,126 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total decrease in Sutton County, Texas' investment in capital assets for the current fiscal year was 2.66 percent.

Major capital asset events during the current fiscal year included the following: None

		nmental vities	То	otal
	2021	2020	2021	2020

#### SUTTON COUNTY, TEXAS CAPITAL ASSETS (Net of Depreciation)

Additional information on Sutton County, Texas' capital assets can be found in Note IV C on page 31 of this report.

Long-term debt:

Sutton County, Texas had no bonded debt outstanding on September 30, 2021.

The County expects its finances to remain the same as in the past. Inflation will play a factor but will affect both revenues and expenditures equally. There are no major events planned in the future.

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the System. The duration of these uncertainties and the ultimate financial effects cannot be estimated at this time.

#### **Requests for Information**

This financial report is designed to provide a general overview of Sutton County, Texas' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the County Auditor, P.O. Box 16, Sonora, Texas 76950.

## BASIC FINANCIAL STATEMENTS

### GOVERNMENT-WIDE FINANCIAL STATEMENTS

#### SUTTON COUNTY, TEXAS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES SEPTEMBER 30, 2021

Net Changes in Fund Balances - total governmental funds	\$677,128
Amounts reported for governmental activities in the statement of Net Position ("SNP") are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays	
exceeded depreciation in the current period.	(124,980)
(Increase) decrease in Compensated absences from beginning of period to end of period.	58,506
Certain property tax revenues are deferred in the funds. This is the change in these amounts this year.	29,949
Other long-term assets are not available to pay for current period	
expenditures and, therefore, are deferred in the funds. This is the change in these amounts this year.	(85,330)
GASB 75	
Differences between expected and actual experience	37,654
Changes of assumptions	(45,527)
GASB 75 OPEB Payable. This is the change in these amounts this year.	53,856
GASB 68	
Deferred Outflow of Resources-Contribution. This is the change in these amounts this year.	(5,470)
Changes of assumptions	741,083
Differences between expected and actual experience	(85,130)
Net difference between projected and actual earnings	(230,846)
Increase in Net Pension Receivable	(273,701)
GASB 68 Net Pension Payable. This is the change in these amounts this year.	0
Repayment of loan principal is an expenditure in the funds but not an expense in the SOA.	40,805
Change in Net Position of governmental activities - statement of activities	\$787,997

#### SUTTON COUNTY, TEXAS NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2021

#### I. Summary of Significant Accounting Policies

#### A. Reporting entity

Sutton County operates under a County Judge – Commissioners' Court type of government and provides the following services throughout the County: public safety (fire, ambulance, and law enforcement), public transportation (highways and roads), health and welfare, culture and recreation, conservation (agriculture), public facilities, judicial and legal, election functions, and general and financial administrative services. The accounting policies of Sutton County, Texas, (the County) conform to generally accepted accounting principles. The County also applies all relevant Government Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant policies.

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

B. Government-Wide and Fund Financial Statements

The County's government-wide financial statements include a statement of net position and a statement of activities. These statements present summaries of governmental activities for the County accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying statement of net position. The statement of activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the County are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the statement of net position have been eliminated except those representing balances between the governmental activities, which are presented as internal balances and eliminated in the total primary government column. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The County has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the balance sheets. The statement of revenues, expenditures and changes in fund balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recognized when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the County, are property tax, intergovernmental revenues and charges for services. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The road and bridge fund accounts for the activities of the government's road and bridge operations.

The law enforcement grants fund accounts for grant monies specifically earmarked for law enforcement.

The records management fund accounts for monies specifically earmarked for records management purposes.

C. Fiduciary fund financial statements include a statement of net position. The County's fiduciary funds are Agency Funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting.

- D. Assets, Liabilities, and Net Position or Equity
- 1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Government and the District to invest in obligations of the U.S. Treasury. Investments for the Government are reported at fair value.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to a total of 1 percent of the current outstanding property taxes at September 30, 2021 and 10 percent of the delinquent outstanding property taxes at September 30, 2021.

Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review and judicial review. Traditionally, property taxes are levied October 1, of the year in which assessed or as soon thereafter as practicable. Taxes are due and payable when levied since that is when the County bills the taxpayers. The County begins to collect the taxes as soon as the taxpayers are billed.

#### 3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when purchased.

There were no prepaid items at September 30, 2021.

4. Restricted Net Position

The County had no restricted assets at September 30, 2021.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The county had no such projects for the year.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Years

Buildings	50
Building Improvements	20
Public Domain Infrastructure	50
System Infrastructure	30
Vehicles	5
Office Equipment	5
Computer Equipment	5

#### 6. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and unpaid accumulated sick leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in government-wide financial statements.

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position.

8. Fund Balances – Governmental Funds

As of September 30, 2021, fund balances of the governmental funds are classified as follows:

**Restricted** — amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

**Committed** — amounts that can be used only for specific purposes determined by a formal action of Commissioners' Court. Commissioners' Court is the highest level of decision-making authority for the County. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by Commissioners' Court.

Unassigned — all other spendable amounts.

As of September 30, 2021, fund balances are composed of the following:

Fund Balances:	
Restricted	
Judicial	109,692
Legal	40
Public Safety	99,424
Public Transportation	1,060,498
Culture and Recreation	3,436
Health and Welfare	366,722
Committed	
Building Improvement/	
Public Safety	517,534
Unassigned	6,753,721
Total Fund Balance	8,911,067

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Commissioners' Court or the finance committee has provided otherwise in its commitment or assignment actions.

In fiscal year 2011, the Commissioners' Court adopted a minimum fund balance policy for the General Fund. The policy requires the unassigned fund balance at fiscal year end to be at least equal to 25 to 33 percent of the subsequent year's budgeted General Fund expenditures.

#### 9. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government has two items that qualify for reporting in this category. They are deferred under GASB 68 and GASB 75.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has two items that qualify for reporting in this category. They are deferred under GASB 68 and GASB 75.

The County reports unearned revenue on its fund financial statements. Unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period (fund financial statements). Unearned revenues also arise when resources are unearned by the County and received before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures (fund financial statements and government-wide financial statements). In subsequent periods, when both revenue recognition criteria are met, or when the County has a legal claim to the resources, the liability for unearned revenue is removed from the applicable financial statement and revenue is recognized. Pursuant to GASB 65 we have included deferred ad valorem taxes as deferred inflows in the fund financial statements.

10. Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

- II. Reconciliation of government-wide and fund financial statements
- A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$1,392,703difference are as follows:

GASB 75 Payable	\$1,122,057
Compensated Absences	117,169
Capital Lease	153,477
	\$1,392,703

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds" report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$4,574,126 difference are as follows:

Capital Assets Not Being Depreciated	\$545,173
Capital Assets Being Depreciated	10,936,096
Depreciation Expense	(6,907,143)
Net Adjustment to	
Increase Net Changes	
in Fund Balances - Total	
Governmental Funds to	
Arrive at Changes in	
Net Position of	
Governmental Activities	\$4,574,126

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds (net of allowance for uncollectibles.") The details of this \$182,725 difference are as follows:

Property Taxes Receivable	\$196,027
Allowance for Doubtful Accounts	(13,302)
Net	\$182,725

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds." The details of this \$1,262,129 difference are as follows:

Fines and Fees Receivable	\$2,907,807
Allowance for Doubtful Accounts	(2,453,487)
Net Pension Receivable	605,472
GASB 68	
Deferred Outflow of Resources-Contributions (after 12/31/20)	296,682

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this (\$124,980) difference are as follows:

Capital Outlay - Additions - Not Being Depreciated	\$0
Capital Outlay - Additions - Being Depreciated	258,688
Capital Outlay - Deletions	0
Depreciation Expense	(383,668)
Net Adjustment to	
Increase Net Changes	
in Fund Balances - Total	
Governmental Funds to	
Arrive at Changes in	
Net Position of	
Governmental Activities	(\$124,980)

#### III. Stewardship, Compliance, and Accountability

A. Budgetary Information

The original budget is adopted by the Commissioners' Court and filed with the County Clerk. Amendments are made during the year on approval by the Commissioners' Court.

The final amended budget is used in this report.

The budget should not be exceeded in any expenditure category under State law. Unused appropriations lapse at the end of each year.

The County Judge is, by statute, the Budget Officer of the County. She usually requests and relies on the assistance of the County Auditor to prepare the annual budget. After being furnished budget guidelines by the Commissioners' Court, the County Auditor prepares an estimate of revenues and a compilation of requested departmental expenditures and submits this data to the Commissioners' Court.

The Commissioners' Court invites various department heads to appear for a hearing concerning the departments' budget requests. Before determining the final budget, the Commissioners' Court may increase or decrease the amounts requested by the various departments. Amounts finally budgeted may not exceed the County Auditor's estimate of revenues and available cash. The final budget can be legally amended by the Commissioners' Court to whatever extent the Court desires as long as the amended figures do not exceed the County Auditor's estimate of revenues and available cash.

When the Budget has been adopted by the Commissioners' Court, the County Auditor is responsible for monitoring the expenditures of the various departments of the County to prevent expenditures from exceeding budgeted appropriations and for keeping the members of the Commissioners' Court advised of the condition of the various funds and accounts. The level of control for each legally adopted annual operating budget is the fund.

Budgets for the 2021 fiscal year were adopted for the General Fund and the Road and Bridge Fund.

B. Excess of Expenditures over Appropriations

For the year ended September 30, 2021, excess of expenditures over appropriations did not occur in any fund.

C. Deficit fund equity

The county had no deficit fund balances as of September 30, 2021 except for the Law Enforcement Grant Fund which had a deficit of \$80,895, the Records Management Fund which had a deficit of \$64,312, and the Border Prosecution Fund which had a deficit of \$9,685. These deficits are expected to be liquidated by future resources of these funds.

- IV. Detailed Notes on All Funds
- A. Deposits and Investments

Legal and Contractual Provisions Governing Deposits and Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the County to have independent auditors perform test procedures related to investment practices as provided by the Act. The County is in compliance with the requirements of the Act and with local policies.

As of September 30, 2021, the government had the following investments: None

Policies Governing Deposits and Investments:

In compliance with the Public Funds Investment Act, the County has adopted a deposit and investment policy. The County does address the following risks:

*Custodial credit risk - deposits.* In the case of deposits, there is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of September 30, 2021, the government's bank balance of \$15,415,740 was not exposed to custodial credit risk because it was fully insured and or collateralized with securities held by the pledging financial institution's trust department or agent, in the government's name. The fair market value of the securities pledged is \$15,746,004 and the FDIC coverage is \$250,700. The book amount of cash at September 30, 2021 is \$9,079,174.

### IV. Detailed Notes on All Funds (continued)

### B. Receivables

Receivables at year end for the government's individual major funds and non-major and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

		Road and	Other Governmental	
	General	Bridge	Funds	Total
Receivables				
Taxes	\$161,526	\$34,502		\$196,027
Fees and Fines	2,907,807			2,907,807
Officers Fees	15,805	7,771		23,575
Other	22		15	37
Gross Receivables	3,085,159	42,272	15	3,127,447
Less: Allowance for				
Uncollectibles	2,464,474	2,315		2,466,789
Net Total Receivables	\$620,685	\$39,957	\$15	\$660,658

## C. Capital Assets

Capital asset activity for the year ended September 30, 2021 was as follows:

Governmental Activities: Capital assets not being depreciated:	Beginning Balances	Increases	Decreases	Ending Balances
Land	\$245,073	mercuses	Deereuses	\$245,073
Other Assets	300,100			300,100
Construction in Progress	0			0
Total capital assets not being depreciated:	545,173	0	0	545,173
Capital assets being depreciated:				
Building and Improvements	6,084,960	104,015		6,188,975
Machinery, Equipment and Vehicles	2,619,762	154,673	9,000	2,765,435
Intangible	73,947			73,947
Infrastructure	1,907,739			1,907,739
Total capital assets being depreciated:	10,686,408	258,688	9,000	10,936,096
Less: Accumulated Depreciation for:				
Building and Improvements	2,480,797	141,334		2,622,131
Machinery, Equipment and Vehicles	2,069,992	242,334	9,000	2,303,326
Intangible	73,947			73,947
Infrastructure	1,907,739			1,907,739
Total Accumulated Depreciation	6,532,475	383,668	9,000	6,907,143
Total Capital Assets Depreciated, Net	4,153,933	(124,980)	0	4,028,953
Governmental Activities capital assets, Net	\$4,699,106	(\$124,980)	\$0	\$4,574,126

Depreciation expense was charged to the major expense functions as follows:

Governmental Activities	
General Administration	\$7,949
Judicial	9,909
Legal	1,300
Financial Administration	7,278
Public Facilities	68,982
Public Safety	122,339
Public Transportation	112,452
Culture and Recreation	46,875
Conservation - Agriculture	6,585
Total Depreciation Expense - Governmental Activities	\$383,668

Construction commitments: None

D. Interfund Receivables, Payables, and Transfers

There were no advances at September 30, 2021.

There was no Due to/from other funds at September 30, 2021.

The following were the transfers for the year ended September 30, 2021.

ACCOUNT	AMOUNT	REASON	TYPE
FROM GENERAL FUND			
TO FLOOD CONTROL FUND	\$3,000	FLOOD CONTROL	RECURRING
TO ROAD AND BRIDGE	250,000	ROAD MAINTENANCE	RECURRING
FROM ROAD & BRIDGE FUND	_		
TO FMFC EQUIPMENT REPLACEMENT	60,000	ROAD EQUIPMENT	RECURRING
	\$313,000		

#### E. Leases

**Operating Leases** 

The government leases equipment under non-cancelable operating leases. Total costs for such leases were \$18,627 for the year ended September 30, 2021. The future minimum lease payments for these leases are as follows:

Year Ending Sep. 30,	Amount
2022	\$12,244
2023	11,518
2024	10,065
2025	3,279
Total	<u>\$37,106</u>

Rent expenditures were \$6,500 for the year ended September 30, 2021. Sublease rental income was \$0 for the year ended September 30, 2021. Rental income was \$1 for the year ended September 30, 2021.

### F. Long-Term Debt

Capital Leases: The government has entered into three capital lease agreements as lessee for financing the acquisition of various equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of its future minimum lease payments as of the inception date. The security pledged for the capital leases is the equipment financed.

Assets acquired through capital leases are as follows:

	(	Governmental Activities					
	CATERPILLAR	CATERPILLAR CLERK THREE					
	WHEEL	VOTING	POLICE				
Asset:	LOADER	EQUIPMENT	TAHOES	TOTAL			
Cost	\$154,778	\$43,788	\$160,678	\$359,244			
Less: Accumulated							
Depreciation	154,778	35,030	96,407	286,215			
Total	\$0	\$8,758	\$64,271	\$73,029			

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2021, were as follows:

	Governmental Activities				
	CATERPILLAR	CLERK	THREE		
	WHEEL	VOTING	POLICE		
YEAR	LOADER	EQUIPMENT	TAHOES	TOTAL	
2022	85,000	9,196	29,902	124,098	
2023			27,000	27,000	
TOTAL MINIMUM LEASE PAYMENTS	85,000	9,196	56,902	151,098	
LESS: AMOUNT REPRESENTING INTEREST	3,712	(8,527)	2,436	(2,379)	
PRESENT VALUE OF NET MINIMUM LEASE PAYMENTS	\$81,288	\$17,723	\$54,466	\$153,477	

The above debt is to be serviced by the General Fund and the Road and Bridge Fund.

## Changes in long-term liabilities:

	Beginning <u>Balance</u>	Additions	Reductions	Ending <u>Balance</u>	Due Within <u>One Year</u>	Due After <u>One Year</u>
Governmental Activities:						
GASB 75	\$1,175,913	\$1,122,057	\$1,175,913	\$1,122,057	\$0	\$1,122,057
Capital Lease	194,282		40,805	153,477	108,744	44,733
Compensated Absences	175,675	117,169	175,675	117,169	117,169	0
GASB 68	0			0	0	0
Total Governmental						
Activities	1,545,870	1,239,226	1,392,393	1,392,703	225,913	1,166,790
Grand Total	\$1,545,870	\$1,239,226	\$1,392,393	\$1,392,703	\$225,913	\$1,166,790

The general fund and the road and bridge fund are used to service the compensated absences. The estimated amount due in the 2021-22 year is \$117,169.

The government-wide statement of activities includes \$225,913 as "noncurrent liabilities, due within one year".

The total amount of interest expensed in 2020-2021 is \$7,650.

#### V. Other Information

#### A. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation).

	Year Ended	Year Ended
	<u>September 30, 2020</u>	<u>September 30, 2021</u>
Unneid deine heeineine official woon	ቀሳ	0.0
Unpaid claims, beginning of fiscal year	\$0	\$0
Incurred claims (including IBNRs)	0	0
Claim payments	0	0
Unpaid claims, end of fiscal year	\$0	\$0

## 1. General Liability Insurance

The County is insured for general, police officers and automobile liability.

The County has joined together with other governments in the Texas Association of Counties Risk Management Pool. The County pays an annual premium to Risk Management for auto vehicle insurance coverage. The agreement with Risk Management provides that Risk Management will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$100,000 to \$300,000 for each insurance event. The County anticipates no contingent losses.

Texas Association of Counties Risk Management Pool has published its own financial report that can be obtained from the Texas Association of Counties Risk Management Pool.

The County continues to carries commercial fidelity bonds for elected officials and for management.

2. Property and Casualty Insurance

Property, casualty, mobile equipment insurance is provided by Texas Association of Counties Risk Management Pool.

3. Workers' Compensation Insurance

The County insures against workers' compensation claims through Texas Association of Counties Risk Management Pool.

4. Group Health and Life Insurance

The County maintains a group health insurance plan for active employees and their eligible dependents. Costs are recorded in the fund from which the employees' compensation is paid.

5. Unemployment Compensation Insurance

The County insures for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC).

B. Related Party Transaction –

There are no related party transaction requiring disclosure for the fiscal year end September 30, 2021.

C. Subsequent Events:

On May 23, 2022, the County approved to apply for the State Library and Archives Commission CAP-22021 Reimbursement Grant for \$9,366.00.

On August 8, 2022, the County approved the lease purchase agreement with John Deere for a Skid Steer for a total of \$106,965.00.

On September 12, 2022, the County approved the bid for truck scales from A-1 Scale Service, Inc. in the amount of \$156,300.00.

On September 26, 2022, the County accepted Sheriff Oscar Chavez's letter of resignation effective October 23, 2022.

## D. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial. The government was not a defendant in any lawsuits for the fiscal year of September 30, 2021.

## E. Prior Period Adjustments

The County has determined that certain transactions were recorded incorrectly in a prior year. The County had a prior period adjustment whereby governmental activities' Net Position and governmental funds were restated upward by \$23,333 due to the omission of the County Attorney State Grant. This restatement had the corresponding effect on the beginning net position, as follows:

	Net		
	Position		Net
	As	County	Position
	Previously	Attorney	As
	Reported	Grant	Restated
<b>Governmental Activities:</b>			
Net Position	\$12,726,014	\$23,333	\$12,749,347
<b>Total Governmental Activities</b>	\$12,726,014	\$23,333	\$12,749,347
	As	County	
	As Previously	County Attorney	
			As Restated
Governmental Funds:	Previously	Attorney	As Restated
Governmental Funds: Fund Balances	Previously	Attorney	<b>As Restated</b> \$8,233,939
	Previously Reported	Attorney Grant	

# F. Summary of TCDRS Funding Policy

Net Pension Liability / (Asset)	December 31, 2019	December 31, 2020	
Total pension liability	\$17,834,147	\$19,551,856	
Fiduciary net position	18,713,319	20,157,328	
Net pension liability/(asset)	(879,173)	(605,472)	
Fiduciary net position as a % of total pension liability	104.93%	103.10%	
Pensionable covered payroll	\$2,717,818	\$2,933,919	
Net Pension liability as a % of covered payroll	-32.35%	-20.64%	

## Net Pension Liability / (Asset)

The total pension liability was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions below.

Note: Rounding differences may exit above or in other tables in this report.

## **Discount Rate**

Discount rate	8.10%	7.60%
Long-term expected rate of return, net of investment expense	8.10%	7.60%
Municipal bond rate	Does not apply	Does not apply

## **Other Key Actuarial Assumptions**

All actuarial assumptions that determined the total pension liability as of December 31, 2020 were based on the results of an actuarial experience study for the period January 1, 2013 - December 31, 2016, except where required to be different by GASB 68. The economic assumptions were reviewed at the march 2021 TCDRS Board of Trustees meeting and revised assumptions were adopted. These revisions included reductions in the investment return, wage growth, and maximum payroll growth assumptions. The assumptions are reviewed annually for continued compliance with the relevant actuarial standards of practice.

See Appendix B of this report (Actuarial Methods and Assumptions Used for GASB Calculations) for a listing of key assumptions used in the calculation of the total pension liability and other GASB 68 metrics.

See Appendix C (Actuarial Methods and Assumptions Used for Funding Valuation) of this report for a full description of the actuarial assumptions used in the funding valuation.

	Beginning Date	Ending Date
Valuation date	December 31, 2019	December 31, 2020
Measurement date	December 31, 2019	December 31, 2020
Employer's fiscal year	October 1, 2020	September 30, 2021

# Long-Term Expected Rate of Return

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2021 information for a 10-year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed in detail at a minimum of every four years, and is set based on a long-term time horizon The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. Milliman relies on the expertise of Cliffwater in this assessment.

Asset Class	Benchmark	Target Allocation	Geometric Real Rate of Return
U.S. Equities	Dow Jones U.S. Total Stock Market Index	11.50%	4.25%
Global Equities	MSCI World (net) Index	2.50%	4.55%

Cash Equivalents	90-Day U.S. Treasury	2.00%	-0.70%

# **Depletion of Plan Assets / GASB Discount Rate**

The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

- 1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
- 2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternative methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act.

- 1. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
- 2. Under the TCDRS Act, the employer is legally required to make the contribution specified in the funding policy.
- 3. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.
- 4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, we have used a discount rate of 7.60%. This rate reflects the long-term assumed rate of return on assets for funding purposes of 7.50%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

As additional documentation for auditing purposes, we have shown the projection of the Fiduciary Net Position in the following exhibit ("Projection of Fiduciary Net Position").

Projection of Fiduciary Net Position						
Calendar	Projected Beginning	Projected	Projected	Projected	Projected	Projected
Year	Fiduciary	Total	Benefit	Administrative	Investment	Ending Fiduciary
Ending	Net Position	Contributions	Payments	Expenses	Earnings	Net Position
	(a)	(b)	(c)	(d)	(e)	(a)+(b)-(c)- (d)+(e)
2021	\$20,157,328	\$401,745	\$1,254,102	\$20,157	\$1,499,408	\$20,784,222
2022	20,784,222	398,625	1,181,329	20,784	1,549,627	21,530,361

Other	0	(11,808)	11,808
Balances as of December 31, 2020	\$19,551,857	\$20,157,327	(\$605,470)

## **Sensitive Analysis**

The following presents the net pension liability of the employer, calculated using the discount rate of 7.60%, as well as what the Sutton County net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.60%) or 1 percentage point higher (8.60%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
	6.60%	7.60%	8.60%
Total pension liability	\$21,855,611	\$19,551,856	\$17,600,399
Fiduciary net position	20,157,328	20,157,328	20,157,328
Net pension liability/(asset)	\$1,698,283	(\$605,472)	(\$2,556,929)

## **Pension Expense / (Income)**

	<b>January 1, 2020 to</b>
Pension Expense / (Income)	December 31, 2020
Service cost	\$327,321
Interest on total pension liability	1,436,433
Effect of plan changes	0
Administrative expenses	14,749
Member contributions	(205,374)
Expected investment return net of investment expenses	(1,496,389)
Recognition of deferred inflows/outflows of resources	
Recognition of economic/demographic gains or losses	(98,250)
Recognition of assumption changes or inputs	268,704
Recognition of investment gains or losses	(205,033)
Other	11,808
Pension expense	\$53,969

As of December 31, 2020, the deferred inflows and outflows of resources are as follows:

<b>Deferred Inflows/Outflows of Resources</b>	Deferred Inflows of Resources	Deferred Outflows of Resources
Differences between expected and actual experience	\$236,460	\$8,292
Changes of assumptions	0	773,599
Net difference between projected and actual earnings	700,645	0
Contributions made subsequent to measurement date	N/A	Employer determined

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

Year ending December 31:

2021	(\$54,067)
2022	141,480
2023	(155,452)
2024	(87,175)
2025	0
Thereafter	0

2014	175,096	176,865	(1,769)	2,526,640	7.00%	
2015	165,224	177,388	(12,164)	2,534,111	7.00%	
2016	159,466	183,595	(24,130)	2,622,790	7.00%	
2017	143,824	183,382	(39,558)	2,619,738	7.00%	
2018	153,801	189,211	(35,409)	2,703,009	7.00%	
2019	150,567	190,247	(39,680)	2,717,818	7.00%	
2020	162,833	205,374	(42,542)	2,933,919	7.00%	

**Schedule of Employer Contributions** 

## Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method	Entry Age
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	20.0 years (based on contribution rate calculated in 12/31/2020 valuation)
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Salary Increases	Varies by age and service. 4.6% average over career including inflation.
Investment Rate of Return	7.50%, net of administrative and investment expenses, including inflation
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Changes in Assumptions and Methods Reflected in the Schedule of Employer Contributions	<ul><li>2015: New inflation, mortality and other assumptions were reflected.</li><li>2017: New mortality assumptions were reflected.</li><li>2019: New inflation, mortality and other assumptions were reflected.</li></ul>
Changes in Plan Provisions Reflected in the Schedule of Employer Contributions	<ul> <li>2015: No changes in plan provisions were reflected in the Schedule.</li> <li>2016: No changes in plan provisions were reflected in the Schedule.</li> <li>2017: New Annuity Purchase Rates were reflected for benefits earned after 2017.</li> <li>2018: No changes in plan provisions were reflected in the Schedule.</li> <li>2019: No changes in plan provisions were reflected in the Schedule.</li> <li>2020: No changes in plan provisions were reflected in the Schedule.</li> </ul>

## Appendix A— GASB 68 Plan Description for Sutton County

A description of the pension plan pursuant to Paragraph 40 of GASB Statement No. 68 is as follows:

- a. Sutton County participates in the Texas County & District Retirement System (TCDRS), which is a statewide, agent multiple-employer, public employee retirement system.
- b. A brief description of benefit terms:

1) All full- and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

- 2) The plan provides retirement, disability and survivor benefits.
- 3) TCDRS is a savings-based plan. For the county's plan, 7% of each employee's pay is deposited into his or her TCDRS account. By law, employee accounts earn 7% interest on beginning of year balances annually. At retirement, the account is matched at an employer set percentage (current match is 150%) and is then converted to an annuity.
- 4) There are no automatic COLAs. Each year, the county may elect an ad hoc COLA for its retirees (if any). There are two COLA types, each limited by actual inflation.
- 5) Benefit terms are established under the TCDRS Act. They may be amended as of Jan. 1 each year, but must remain in conformity with the Act.
- c. Membership information is shown in the chart below.
- d. The county's contribution rate is calculated annually on an actuarial basis, although the employer may elect to contribute at a higher rate. The Sutton County contribution rate is based on the TCDRS funding policy adopted by the TCDRS Board of Trustees and must conform with the TCDRS Act. The employee contribution rates are set by the county and are currently 7%. Contributions to the pension plan from the county for 2020 are shown in the Schedule of Employer Contributions.
- e. The most recent comprehensive annual financial report for TCDRS can be found at the following link, www.tcdrs.org.

Members	Dec. 31, 2019	Dec. 31, 2020
Number of inactive employees entitled		
to but not yet receiving benefits:	51	51
Number of active employees:	70	72
Average monthly salary:	\$3,179	\$3,372
Average age:	49.55	50.62
Average length of service in years:	12.38	12.52
Inactive Employees (or their Beneficiaries)	Receiving Benefits	
Number of benefit recipients:	40	42
Average monthly benefit:	\$1,753	\$1,809

## **Membership Information**

## Appendix B—Actuarial Methods and Assumptions Used for GASB Calculations

All actuarial methods and assumptions used for this GASB analysis were the same as those used in the December 31, 2020 funding valuation (see Appendix C, following, for details), except as noted below and throughout this report. Please see the Sutton County December 31, 2020 Summary Valuation Report for further details.

The following are the key assumptions and methods used in this GASB analysis.

Valuation Timing	Actuarially determined contribution rates are calculated on a calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported,
Actuarial Cost Method	-
Amortization Method Recognition of	Entry Age Normal
economic/demographic gains or losses	Straight-Line amortization over Expected Working Life
Recognition of assumptions changes or inputs	Straight-Line amortization over Expected Working Life
Asset Valuation Method Smoothing period Recognition	5 years Non-asymptotic None
method Corridor	Same as funding valuation: See Appendix C
Inflation	Same as funding valuation: See Appendix C
Salary Increases	8.10% (Gross of administrative expenses)
Investment Rate of Return	Cost-of-Living Adjustments for Sutton County are not
Cost-of-Living Adjustments	considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Same as funding valuation: See Appendix C
Turnover	Same as funding valuation: See Appendix C
Mortality	Same as funding valuation: See Appendix C

## Appendix C—Actuarial Methods and Assumptions Used for Funding Valuation

Except where indicated in the section of this GASS 68 report entitled "Actuarial Methods and Assumptions Used for GASS Calculations", the assumptions used in this analysis for the December 31, 2020 financial reporting metrics are the same as those used in the December 31, 2020 actuarial valuation analysis for Sutton County.

The following is a description of the assumptions used in the December 31, 2020 actuarial valuation analysis for Sutton County. This information may also be found in the Sutton County December 31, 2020 Summary Valuation Report.

**Economic Assumptions** 

TCDRS system-wide economic assumptions:

Real rate of return	5.00%
Inflation	2.50%
Long-term investment return	7.50%

The assumed long-term investment return of 7.5% is net after investment and administrative expenses. It is assumed returns will equal the nominal annual rate of 7.5% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of each participating employer.

The annual salary increase rates assumed for individual members vary by length of service and by entryage group. The annual rates consist of a general wage inflation component of 3.00% (made up of 2.50% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.6% per year for a career employee. (See Table 1 for Merit Salary Increases.)

Employer-specific economic assumptions:

Growth in membership	0.00%
Payroll growth for funding calculations	3.00%

The payroll growth assumption is for the aggregate covered payroll of an employer.

Merit Salary Increase					
Entry Age					
Years of					
01	Before	Ages 30-	Ages 40-	50 and	
Service	30	39	49	later

Table 1

## **Demographic Assumptions**

TCDRS system-wide demographic assumptions:

Replacement of Terminated Members — New employees are assumed to replace any terminated members and have similar entry ages.

Disability — The rates of disability used in this valuation are illustrated in Table 2. Members who become disabled are eligible to commence benefit payments regardless of age. Rates of disability are in a custom table based on TCDRS experience.

Age	Work Related Male and Female	All Other Causes Male and Female	Age	Work Related Male and Female	All Other Causes Male and Female
less than					
25	0.000%	0.000%	43	0.004%	0.058%

40	0.002	0.042	59	0.018	0.270
41	0.003	0.047	60 & Above	0.018	0.000
42	0.003	0.053			

Table 2Annual Rates of Disability

The probability of disablement from all other causes is applicable for members who are vested but not eligible for service retirement. Before a member is vested, only the work-related disability provisions are applicable.

#### Mortality

Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014

**Family Composition** — For current retirees, beneficiary information is supplied by TCDRS. For purposes of calculating the Survivor Benefit for current depositing and non-depositing members, male members are assumed to have a female beneficiary who is three years younger. Female members are assumed to have a male beneficiary who is three years older.

**Service Retirement** — Members eligible for service retirement are assumed to retire at the rates shown in Table 3.

Age	Male	Female	Age	Male	Female
40-44	4.5%	4.5%	62	20.0%	20.0%
45-40	9.0	9.0	63	15.0	15.0
50	10.0	10.0	64	15.0	15.0
51	9.0	9.0	65	25.0	25.0
52	9.0	9.0	66	25.0	25.0
53	9.0	9.0	67	22.0	22.0
54	10.0	10.0	68	20.0	20.0
55	10.0	10.0	69	20.0	20.0
56	10.0	10.0	70	22.0	22.0
57	10.0	10.0	71	22.0	22.0
58	12.0	12.0	72	22.0	22.0
59	12.0	12.0	73	22.0	22.0
60	12.0	12.0	74	22.0	22.0
61	12.0	12.0			

# Table 3Annual Rates of Service Retirement

## **Employer-specific demographic assumptions**:

**Other Terminations of Employment** — The rate of assumed future termination from active participation in the plan for reasons other than death, disability or retirement are illustrated in Table 4. The rates vary by length of service, entry-age group (age at hire) and gender. No termination after eligibility for retirement is assumed.

Annual Rates of Termination									
Years of	Entry	Age 20	Entry	v Age 30	Entry	Entry Age 40		Entry Age 50	
Service	Male	Female	Male	Female	Male	Female	Male	Female	
0	23.4%	25.3%	19.5%	21.1%	16.6%	17.9%	15.6%	16.9%

30 & Later	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	

Table 4Annual Rates of Termination

Withdrawals - Members who terminate may either elect to leave their account with TCDRS or withdraw their funds. The probability that a member elects a withdrawal varies by length of service and vesting schedule. Rates applied to your plan are shown in Table 5. For non-depositing members who are not vested, 100% are assumed to elect a withdrawal.

Probability of Withdrawal					
Years of			Years of		
Service	Probability		Service	Probability	
0	100%		15	40	
1	100		16	38	
2	100		17	36	
3	100		18	33

14	41		29	10	

Table 5

## F. OPEB Information

# 1.1 GASB 75 Accounting Information

The GASB statement No. 75 applies solely to the actuarial valuation for accounting measurements only. The accounting statement has a number of required disclosures for the sponsoring employer in addition to the complex actuarial calculations. Below is a high-level summary of the GASB No. 75 implications for Sutton County based on our current understanding of the guidance issued to date:

- <u>Effective Date</u> Financial disclosures must comply with GASB 75 for fiscal years beginning after June 15, 2017 including annual updates to these measurements.
- <u>Terminology</u> The actuarial accrued liability is referred to as the Total OPEB Liability, the fair market value of assets is referred to as the Plan Fiduciary Position, and the unfunded actuarial liability and balance sheet liability are referred to as the Net OPEB Liability.
- <u>Net OPEB Liability</u> Plan sponsors must recognize the Net OPEB Liability on its balance sheet.
- <u>Discount Rate Assumption</u> For OPEB plans without assets, the Total OPEB liability is measured using a 20year municipal bond index rate (AA/Aa or higher). Using the September 30, 2021 S&P Municipal Bond 20 Year High Grade Rate Index, a 2.43% discount rate is used for the current measurement.
- <u>OPEB Expense</u> GASB 75 requires a calculation of OPEB expense for the sponsor's financial statements that will result in more rapid cost recognition of changes in the Net OPEB Liability than prior rules. The GASB 75 OPEB expense will equal the sum of the following components:
  - o Service Cost (Normal Cost) for additional benefits accrued.
  - Interest Cost on Total OPEB Liability.
  - Amortization of changes in the components of Net OPEB Liability:
    - Full and immediate recognition of plan changes and improvements.
    - Plan asset experience gains and losses amortized over 5 years (not applicable for this plan).
    - Plan liability experience gain/loss amortized over future service.

Impact of assumption changes amortized over future service.

# 1.2 Actuarial Assumptions and Methods

GASB standards require the use of "explicit" actuarial assumptions in the measurement of benefit obligations and costs. In other words, each assumption must stand on its own merits as a best estimate, taking into account both past experience and future expectations. Valuation results may vary significantly based on the choices made, and the most powerful assumption in any actuarial valuation is generally the discount rate.

Please see Exhibit 3.2 for a summary of the actuarial assumptions and methods used in the valuation for fiscal year ending September 30, 2021.

# 1.3 Healthcare Trend and Sensitivity Analysis

The healthcare trend assumption can also have a significant impact on the results of a postretirement medical plan valuation. This assumption is generally used to project increases in per capita claims cost and may also be used to project increases in plan deductibles, co-payments and participant contributions. In developing this assumption, GASB requires employers to consider general inflation as well as healthcare specific cost increases, changes in utilization and delivery patterns, differences by type of benefit, etc.

In recent years, healthcare costs have increased far more rapidly than general inflation - in fact significantly greater than the rate of growth of the U.S. economy gross domestic product (GDP). If this trend were to continue over the long-term, the illogical result would be a U.S. economy made up of nothing but healthcare goods and services. Generally accepted actuarial practice calls for an initial trend assumption that recognizes higher healthcare inflation rates in the short-term, gradually reducing to a long-term rate more consistent with the rate of GDP growth.

As summarized in Exhibit 3.3, Sutton County uses a medical trend assumption beginning at 9% and decreasing I% per year to an ultimate rate of 5% for Pre-Medicare benefits. Post-Medicare benefits are not provided by the plan.

# 1.4 Insurance Premiums

The pre-65 costs are paid through insurance premiums. No coverage is provided after age 65. Please see Exhibit 3.2 for the claims development.

# 1.5 Census Data

The current year valuation was based on participant census data provided by Sutton County as of October 1, 2020. The GASB measurements were based on a roll-forward of that data to September 30, 2021. Although we have not performed a detailed audit of the census data provided, we have reviewed the data for reasonableness and consistency. Please see Exhibit 3.1 for a summary of current year participant statistics.

# 1.6 Substantive Plan

The substantive plan is the basis for measurement of postretirement benefit obligations and costs. The substantive plan includes the current and future terms of the plan, as well as the understanding of these terms by the employer and plan participants. The substantive plan extends beyond the written plan documents, insurance contracts and summary plan descriptions. It may also include a past practice of maintaining a consistent level of cost sharing - passing on healthcare cost increases with corresponding increases in participant deductible, co-payments and premiums.

Please see Exhibit 3.4 for a summary of postretirement medical plan provisions included in the current year valuation.

# 2.1 GASB 75 Disclosure

Changes in Total OPEB Liability

-	Total OPEB
Sutton County	Liability
Balance at 9/30/2020	\$1,175,913
Changes for the year:	
Service Cost	15,083
Interest on Total OPEB Liability	24,344
Experience	-
<b>Employer Contributions</b>	-
Member Contributions	-
Net Investment Income	-
Benefit Payments	(73,692)
Administrative Expense	-
Assumption Changes	(19,591)
Changes in Benefit Terms	_
Net Changes	(53,856)
Balance at 9/30/2021	\$1,122,057

## Sensitivity of the Total OPEB Liability to Changes in the Discount Rate.

The following presents the Total OPEB liability, calculated using the assumed discount rate, as well as what the Total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Discount	1% Increase	
	1.43%	Rate of 2.43%	3.43%	
Total OPEB Liability	\$1,196,857	\$1,122,057	\$1,054,092	
Sonsitivity of the Total ODED Lightlity to Changes in the Healtheave Cost Trend Date				

## Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate.

The following presents the Total OPEB liability, as well as what the Total OPEB liability would be if it were calculated using healthcare trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current Healthcare		
	1% Decrease	Trend Rates	1% Increase
Total OPEB Liability	\$1,050,856	\$1,122,057	\$1,201,788

45	8.8%
55	2.8%

Rates from Croker-Sarason Table T-9

## **Changes in Actuarial Assumptions and Methods**

The discount rate was changed from 2.14% to 2.43%.

## 3.3 Summary of Plan Provisions

## **Eligibility and Retiree Medical Benefits**

Sutton County provides continuation of medical coverage for employees who retire prior to age 65 when Medicare coverage begins. Continued medical coverage will be provided to a retiring employee who has a minimum of 20 years of service with the County upon retirement. The County will pay 100% or the applicable premium under the same medical plan that covers active employees during the time between the employee's retirement date and the date he or she reaches age 65. The medical plan which covers active employees of the County is a PPO arrangement through Blue Cross and Blue Shield of Texas. The program does not provide life insurance benefits to retirees.

As of March 2016, all new employees who retire with a minimum of 20 years of service will only receive coverage for one year after retirement.

Schedule of Employer Contributions

## Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which contributions are reported.

## Methods and assumptions used to determine contribution rates:

Actuarial Cost Method	Entry Age
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	20.0 years (based on contribution rate calculated in 12/31/2020 valuation)
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Salary Increases	Varies by age and service. 4.6% average over career including inflation.
Investment Rate of Return	7.50%, net of administrative and investment expenses, including inflation
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Changes in Assumptions and Methods Reflected in the Schedule of Employer Contributions	<ul><li>2015: New inflation, mortality and other assumptions were reflected.</li><li>2017: New mortality assumptions were reflected.</li><li>2019: New inflation, mortality and other assumptions were reflected.</li></ul>
Changes in Plan Provisions Reflected in the Schedule of Employer Contributions	<ul> <li>2015: No changes in plan provisions were reflected in the Schedule.</li> <li>2016: No changes in plan provisions were reflected in the Schedule.</li> <li>2017: New Annuity Purchase Rates were reflected for benefits earned after 2017.</li> <li>2018: No changes in plan provisions were reflected in the Schedule.</li> <li>2019: No changes in plan provisions were reflected in the Schedule.</li> <li>2020: No changes in plan provisions were reflected in the Schedule.</li> </ul>

## Appendix B—Actuarial Methods and Assumptions Used for GASB Calculations

All actuarial methods and assumptions used for this GASB analysis were the same as those used in the December 31, 2020 funding valuation (see Appendix C, following, for details), except as noted below and throughout this report. Please see the Sutton County December 31, 2020 Summary Valuation Report for further details.

The following are the key assumptions and methods used in this GASB analysis.

Valuation Timing	Actuarially determined contribution rates are calculated on a calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported,		
Actuarial Cost Method	•		
Amortization Method Recognition of	Entry Age Normal		
economic/demographic gains or losses	Straight-Line amortization over Expected Working Life		
Recognition of assumptions changes or inputs	Straight-Line amortization over Expected Working Life		
Asset Valuation Method Smoothing period Recognition	5 years Non-asymptotic None		
method Corridor	Same as funding valuation: See Appendix C		
Inflation	Same as funding valuation: See Appendix C		
Salary Increases	7.60% (Gross of administrative expenses)		
Investment Rate of Return	Cost-of-Living Adjustments for Sutton County are not		
Cost-of-Living Adjustments	considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.		
Retirement Age	Same as funding valuation: See Appendix C		
Turnover	Same as funding valuation: See Appendix C		
Mortality	Same as funding valuation: See Appendix C
